---

7 February 2021

Dr. Desiree Knight  
Baylor Medical Center at Uptown  
2727 E. Lemmon Ave.  
Dallas, TX 75204

Dear Dr. Knight:

I am interested in the Physical Therapy Technician job that was posted on the *United Surgical Partners* website on February 4, 2021. I will officially be going into my senior year at Louisiana Tech University beginning in April and would love the opportunity to work in your clinic this summer to gain more experience in the field before I attend graduate school to earn my Doctorate of Physical Therapy.

As presented in my résumé, I am currently a junior Kinesiology student with a concentration in Health Sciences at Louisiana Tech University. Through my three years in college, I have maintained a 4.0 GPA. The courses I have taken have prepared me to work with the human body and have allowed me to gain experience in many health tests and assessments that could be beneficial to your clinic.

Although I have only worked two jobs, I feel I am still immensely qualified to work as a Physical Therapy Technician. Through being employed at a daycare and working as a concession stand worker, I have good communication skills and work well with others. I have a strong work ethic and will do everything in my power to be the best employee that I can be. I have also been able to observe other physical therapists and technicians and feel that I have enough knowledge of the duties that come with the job.

I look forward to the chance of working in your clinic to gain more experience in the field of Physical Therapy. Thank you for your time and consideration. If you have any further questions, I can be reached at either my email ([bna909@latech.edu](mailto:bna909@latech.edu)) or by phone after 3:00 PM during the week at (337) 555-1141.

Sincerely,

Brandy N. Angelle
