

Test Flow: Acceptance & defect criteria

The First half RUP summary

Box Leangsuksun

Fall 2005 : CSC 532

How to make decision: Readiness of your project

- **Requirement & Test Plan**
- **Objective and Criteria**
 - Entrance Criteria
 - Exit Criteria
- **Quality Model and Measurement (Software Metrics)**

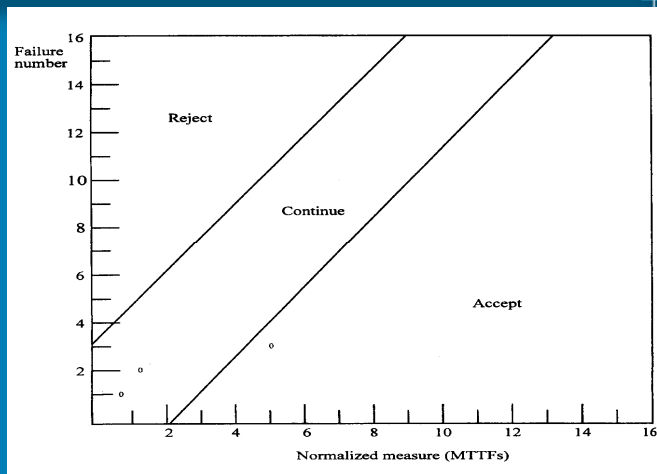

Failure/Defect Severity Classification—System

- Example by Capability Impact excerpted from Musa 1998 book

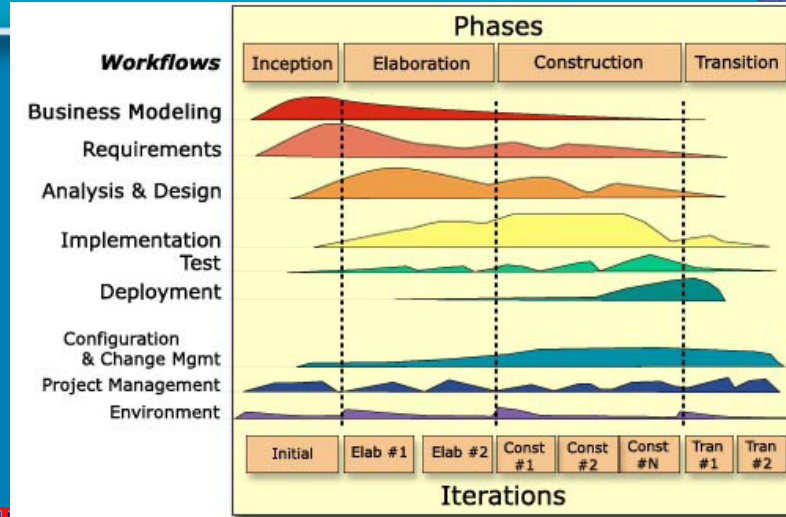

Class	System capability impact
1	Basic service interruption
2	Basic service degradation
3	Inconvenience, correction not deferrable
4	Minor tolerable effects, correction deferrable

Acceptance Chart by FIO
