

INEN 300, Engineering Economics

Optional Assignment

The Total Money Makeover: A Proven Plan for Financial Fitness, by **Dave Ramsey**

The optional reading schedule for the semester is as follows:

Chapters	Quiz Date
Introduction Sections, 1, and 2	TBA
3 and 4	TBA
5, 6, and 7	TBA
8, 9, and 10	TBA
11, 12, and 13	TBA

The assignment may be used in one of the two following ways:

- If you do not have an A average going into the final, you may use the assignment for a bonus ranging from 6 to 10 points on your final exam. The average of your quizzes will determine how many bonus points you receive on the final. For example, an average score of 75% will result in 7.5 bonus points. To qualify for the bonus points, your average grade on the optional quizzes must be a minimum of 60%.
- If you have an A average going into the final, you may use the assignment to avoid taking the final exam. To qualify for exemption, your average grade on the optional quizzes must be a minimum of 75%. You are also required to be present on the last day of class when we review for the final.

I hope you enjoy the book!
