Optional Assignment

The Total Money Makeover: A Proven Plan for Financial Fitness, by **Dave Ramsey**

Let me encourage you to take part in this optional assignment. This book is very practical and provides a foundation for approaching some of the primary financial decisions we make in our lives.

My main goal is for you to read the book. I think you will enjoy it, and I believe it will benefit you greatly. For the assignment, I ask that you develop a PowerPoint presentation that covers the major concepts in the book. Your grade on the presentation will be based on the following:

- The organization and clarity of the presentation
- The content of the presentation
- The use of visual aids in the presentation
- The quality of your presentation in comparison with your peers

Completion of the optional assignment will allow you to earn up to 10 bonus points on the final exam. Your grade on the assignment will determine the number of bonus points received. For example, a grade of 95% will result in 9.5 bonus points. To qualify for the bonus points, your grade must be a minimum of 60%.

I hope you enjoy the book!

Please e-mail your presentation (as a PowerPoint file).

Due Date: Friday, August 8 at 10:00 A.M.
