About				ОК

- 3. Select SolidWorks Premium
- 4. Specify a date until which you would like to borrow the license (6 month max)

- 5. Click **Borrow**, then **OK**
- 6. Click OK

NOTES:

- Borrowing "SolidWorks Premium" will automatically borrow "SolidWorks Standard"
- If you have used SolidWorks within the past couple of hours, you may have trouble borrowing a license since SolidWorks creates a "temporary" license every time you use it. If you are having this problem, wait a few hours after using SolidWorks before trying to borrow a license.
